Hyderabad, India | +91 7989029354 | badavathdineshnaik354@gmail.com | github.com/Dinesh6996

PROFESSIONAL SUMMARY

Computer Applications postgraduate (MCA, 2026) with hands-on programming foundation in C and Python, and practical exposure to web fundamentals (HTML/CSS) through academic projects. Completed structured cybersecurity training with a recognized industry certification. Built and documented multiple independent projects spanning privacy-preserving systems, applied machine learning, and computer vision. Seeking an entry-level Software Engineer / IT role to apply core programming and problem-solving skills, with strong motivation to grow technically on the job.

CORE SKILLS

- Programming Languages: C, Python (working knowledge)
- Web Technologies: HTML, CSS
- Tools & Productivity: MS Office (Word, Excel, PowerPoint), GitHub (project hosting & documentation)
- Soft Skills: Communication, Quick Learning, Teamwork, Critical Thinking, Time Management, Leadership

EDUCATION

Master of Computer Applications (MCA) | Anurag University, 2026 | CGPA: 7.31

Bachelor of Computer Applications (BCA) | Masterji Degree & PG College, 2024 | CGPA: 7.02

Intermediate (HEC) | Vasavi Junior College (TOSS), 2021 | Marks: 175

SSC (10th) | Narayana High School, 2018 | CGPA: 7.8

INTERNSHIP EXPERIENCE

Cybersecurity & Real-Time Project Training | NullClass

- Completed structured, project-based training covering core cybersecurity concepts and industry best practices.
- Applied security fundamentals through guided real-time projects, strengthening practical understanding of threat awareness and safe system practices.

CERTIFICATIONS

- Introduction to Cybersecurity — Cisco Networking Academy

ACADEMIC PROJECTS

Preserving Location Privacy in Geosocial Applications

- Designed and developed a privacy-preserving system to protect user location data in social networking applications from unauthorized tracking and profiling.
- Implemented algorithms to mask precise GPS coordinates while preserving the practical utility of Location-Based Services (LBS).
- Demonstrated a secure approach for users to share check-ins and social updates without exposing exact physical location.

Hybrid CNN-LSTM Framework for Algal Bloom Detection | github.com/Dinesh6996/Hybrid-CNN-LSTM-Algal-Bloom-Detection

- Built a hybrid CNN-LSTM deep learning model to detect algal blooms from water quality parameters, applying data preprocessing and feature analysis to improve prediction accuracy.
- Benchmarked model performance against a Random Forest baseline to evaluate detection accuracy and support environmental decision-making.

Exercise Tracker with Video Analysis | github.com/Dinesh6996/Exercise-Tracker-Video-Analysis-Project

- Developed a video-based exercise monitoring system applying computer vision techniques to track user movement and improve workout form accuracy.

PERSONAL DETAILS

- Date of Birth: 03/06/2003 | Gender: Male
- Languages Known: English, Telugu, Hindi

I hereby declare that the information provided above is true to the best of my knowledge and belief.
